Apple – Cinnamon Flavour added

### BENEFITS

- ✓ Provides a uniform source of nutrition in a palatable, convenient form with reduced dust.
- ✓ Can be used as a mineral supplement to balance mixed grass / legume hays as well as high legume hays.
- ✓ Provides optimum electrolyte balance for horses.
- ✓ Provides all the vitamins necessary for maintenance, performance and hoof integrity.
- ✓ Functions as an antioxidant and supports immune response to help minimize the effects of stress.
- ✓ Encourages maximum feed utilization while decreasing digestive upsets.
- ✓ Stimulates appetite and encourages consumption.

### FEEDING DIRECTIONS:

Feed SHUR-GAIN Equiline Pelleted Horse Mineral Premix at 100 to 150 g/head/day to horses. Equiline Pelleted Horse Mineral Premix can also be fed in association with grains that do not contain supplemental selenium. In addition, feed high quality hay or pasture equivalent at a rate of 0.5 to 1.5% of body weight. Ensure that clean, fresh water is always available.
